

NAVIGATION COMMANDS

- “accept defaults”
- “field complete”
- “new line”
- “new paragraph”
- “next field”
- “previous field”
- “first field”
- “last field”
- “start of field”
- “end of field”
- “go to end of paragraph”
- “go to end of sentence”

WORK EFFICIENTLY

- You can “select” the text and record new text.
- Use your voice instead of keyboard or mouse to perform tasks.
- You can place the cursor in the middle of text and then record/type to insert new text.
- Say “what can I say” for a list of all available commands.
- Use hotkeys or the buttons on your microphone.

TIPS

- If single words are not being recognized correctly, try to avoid correcting one word at a time; delete the whole phrase and say it again.
- Say “open settings” to configure hotkeys and microphone buttons.
- Use hotkeys or the buttons on your microphone to initiate actions.

ADD CUSTOM WORDS

“manage vocabulary” to Add/Delete custom words (names, locations, new medications)

“train word”

CONTROL THE APPLICATION

- “open Dictation Box”
- “close Dictation Box”
- “transfer text”
- “close Dragon” – hide the application
- “open Dragon” – show the application after being closed/hidden
- “recall text”
- “discard text”
- “launch help”

ANCHORING

- “anchor speech focus” – allows the user to place the cursor where they want the dictation to go, then move around to other applications (labs, xrays, etc.)
- “release speech focus”
- “show anchored application” brings the anchored application back into focus

FORMATTING

- “format that bold”
- “format that italic”
- “format that underline”
- “format that normal”

MANAGE AUTO-TEXTS

“make that an auto-text” or “add auto-text” – select the words/paragraph you would like to make an auto text and it starts the Add process

MANAGE COMMANDS

“create command” or “add command” – opens the dialog box to add step-by-step commands

CORRECTION
